The telephonic interview of June 10, 2003 was very helpful. A copy of the Examiners Interview summary and a copy of applicant's fax of proposed amendments to suggestions presented during the interview are attached. Only a few 112 issues remain, these will be set forth below and are highlighted in a copy of applicants fax.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 page 663, last two lines cancel the terms " R^1 and R^2 together may form optionally substituted alicycle, substituted heterocycle.." Page 664 delete from R^6 definition "optionally substituted heteroaryl, optionally substituted benzoheteroaryl". Page 664 last line change [and] to --or a--. In claim 8 change "An agent" to -- a compound--, and in line two change "contain" to -- comprises--.

All other changes in applicant's fax of proposed changes overcome the 112 rejection problems.

Claims 1-19 would be allowed upon further correction of the claims as set forth herein above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled
"Comments on Statement of Reasons for Allowance."
